

CHARLES CORREA MEMORIAL SCHOLARSHIP – A D&M and ETHOS INITIATIVE

“PROJECT BRIDGE”

Project Bridge, is a scholarship program wherein students of architecture are encouraged to follow their dreams with no encumbrances. We are looking at extending our support to promising students who want to take a step ahead into the future, into our future! We are looking to build more leaders who are ready to ask the right questions and then earnestly work in the direction of finding their answers.

As Rabindranath Tagore once said, “Age considers, youth ventures.” Project Bridge is aiming at tapping this curious nature of the youth.

The intention of these scholarships is to lend a helping hand to those students of architecture who are really passionate about the field but are facing constraints that are obstacles in their path to emerging as well-rounded professionals.

The monetary value of the scholarship will be directly equal to the fees due for a year at the college of study amounting to a maximum of Rs.50,000 and a mechanism will be worked out to pay it directly to the respective college; but the actual value to the winning individual will be much more. It will act as a morale booster and will help take the student's mind away from the constraint, helping in focusing on their future goals.

The scholarship celebrates the spirit of “Pay it forward” wherein

STUDENT RECIEVES SCHOLARSHIP > ESTABLISHES SELF> GIVES SCHOLARSHIP TO A STUDENT and the cycle continues.

We believe, a helping hand when offered at the right time can make a real difference, and no one understands it better than the winners of this scholarship! Thus, while this is not mandatory, we urge the winners to help us keep the cycle alive and sponsor a scholarship when they have established themselves.

We hope that Project Bridge would help in bridging the gap between what the student is and what he/she wants to be.
