INTERNATIONAL CHILDREN'S EXCELLENCE FUND

NEW DELHI - 110026

INTRODUCTION

International Children's Excellence Fund is a socio-educational organization, incorporated in India and duly registered under the provision of Indian Trusts Act 1882 at New Delhi to help and assist talented students, to support guide and encourage them by giving financial assistance, in form of scholarship and subsidy to improve their skill and explore their hidden talent to live life happily.

Since its inception, apart from various other programmes and services in the field of education in the country, providing financial support and assistance in the form of subsidy and scholarship to the meritorious students right from the age of 5 years and guiding them upto Post-Graduation in study and even beyond that in selecting career and profession.

It is functioning under the able management of a duly constituted Board of Trustees and All India Council for Integrated Education, Career, Research and Training (AICIECRT) as per its Constitution and Byelaws.

For the year 2016, the Board has announced its most Prestigious Merit Scholarship for the young students as per schedule. However, from 2016 the policy and way of awarding scholarship has been changed. Under the new policy of helping young talented students, INCEF has developed a unique and very innovative system and programme under which education of the selected children will be monitored and supervised directly by the team of experts of council for Integrated Education along with the Expert of INCEF from their early education till they reach to the level of required intelligencia.

INCEF Merit and Integrated Education Scholarship (2016) is for children having age between 5 and 9 years (as on 31.03.2016) to study only at recommended Residential Integrated / Regular English Medium School from I to class XII. Scholarship and subsidy will be paid only to the recommended school directly.

IT IS GIVEN UNDER TWO CATEGORIES OF EDUCATIONAL PROGRAMME: SCHOLARSHIP PLUS SUBSIDY PAYMENT SCHEDULE

Result will be communicated by SMS on mobile phone and also to be communicated by post/e-mail within 10 days after Examination to all the parents, of selected children. The information will also be sent to the parents of Non-selected students. For result, parents may ask on mobile no. 09234300583 after 10 days of the exam held during office hours. This may also be seen at our Website.

Admission of Selected Children.

After result of the test, selected children may be admitted by the parents to the recommended school up to 10th April 2016. However, parents are advised to communicate their decision to concerned school to their earliest possible to keep the seat booked in school for their ward. School will wait for such students up to 15th April 2016.

Allotment/Recommendation of Schools for selected students under Regular & specific course of study will be communicated to the parents along with the result.

For students applied for study of specific and particular professional courses under Integrated Education Programme will be directed to take admission in the School, developed for specific and particular profession. A child has to take admission accordingly in that specific school.

Regular Education Schools And Studies

In Regular course of study, one takes care in imparting education for what best one can do in educating a child, one does not or may not go in depth to find out other factors, influencing progress of the students. Moreover, there is no fixed target to make it achieve. Things move on option and alternative chances.

Important To Note

Important features of these Integrated and non-Integrated system and courses of education must be understood and be noted by the parents before applying for these scholarship and admission in schools.

The Integrated system of education, which is also known as "Corporate system of Education" is a unique and very innovative system of imparting education, where children are first and initially examined for their potential of "Ability" , "capability" and load bearing capacity of Mental, Structure (set up) particularly of neurons. In addition to this, Genetic order and character, environmental impacts are also seen and evaluated.

The basis of these findings and observation one can think and decide for the tentative field of future profession or career with much surety. Accordingly, students are taught & prepared, motivated in these schools for achieving particular profession and for that getting enrolled & admitted in professional colleges or universities to complete the required degree courses.

However, it has also been found and observed in some cases for varied reason; deviation took place in achieving the targeted profession or career as per expectation. Though this situation may come with 1% or 2% cases, otherwise 98% surety could be expected well. In all these courses, a child must be and should be kept in Hostel of these specially structured environment and school.
