

Deakin University Research Fellowships

The Faculty of Health, Deakin University, Australia, in partnership with the Madras Diabetes Research Foundation (MDRF), Chennai, is offering two scholarships for PhD studies through Deakin's In-country PhD Program (ICPP).

Successful candidates will complete their PhDs in India in the challenging areas of DIABETES and OBESITY.

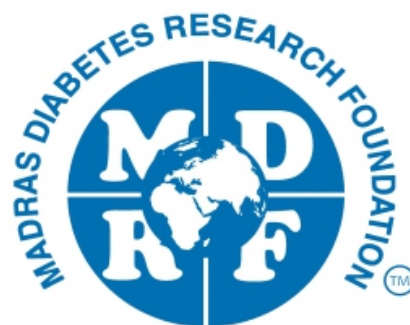

Criteria for application:

- High quality Masters from a recognized leading University
- Completion of a thesis of 10,000 words as part of the Master's program
- At least 70% marks in all exams from Graduation onwards
- Research publications desired

The successful candidates will be enrolled in a PhD at Deakin University, Australia and will receive a 100% Tuition fee scholarship. MDRF will offer a monthly fellowship as per the institutional guidelines.

Candidates will be based at MDRF's campus in Chennai for the duration of the PhD. Joint Supervision will be provided to the PhD student both from Deakin and MDRF faculty.

The candidates will have an opportunity to travel to Australia (Deakin University) for a duration of up to 6 months.

To apply, please send your detailed resume by **1 July 2016** including your academic percentage and research publications to Dr. M. Balasubramanyam at baluglobaldiab@gmail.com.

Please mention "MDRF Deakin PhD Program" in the subject of your email.
